

A Career With Big Time Opportunities

The Entertainment Technology Program at Florida Community College

Northeast Florida has seen explosive growth in the number of first class performance venues. Our students land great jobs and often get paid while they're learning, through our partnership with the International Alliance of Theatrical Stage Employees (IATSE Local 115), the professional union representing backstage personnel. Our graduates have worked behind the scenes for top musicians like Elton John, Tricia Yearwood and Britney Spears. And they've worked on road productions of Cats, Miss Saigon, The Phantom of the Opera and Oklahoma! This career is about inspiring audiences through your work and creativity. The true live theatre experience — the sounds, the drama, the lights, the color — all begin behind the scenes. Standing ovations don't just go to the performers. They can be yours, too!

A World-Class Education

Students in our program gain real-world, hands-on experience in actual concert, dance and theatre productions. And our training facilities are among the finest in the country, including the Nathan H. Wilson Center for the Arts, which includes a 520-seat proscenium theatre and a flexible studio theatre. Both theatres have the most up-to-date, state-of-the-art audio/visual technology. In addition, our facilities include high-tech classrooms, a computer-aided drafting and design (CADD) studio and a costume design shop.

Courses		Credit Hours
General Education		
ENC 1101	English Composition I	3
THE 2000	Theatre Appreciation or PHI 2010 (required for articulation to Jacksonville University)	3
	*Social and Behavioral Science	3
